What We Built for Innov8 Creations

A Summary of Deliverables

Prepared by: Angel Herrera & Jaime Sanchez
Client: Alejandro Ruiz — Innov8 Creations
Date: March 2026

---

1. Brand Identity & Guidelines

We established Innov8 Creations as a premium, nationally-positioned design and marketing agency. Every brand decision was made with intention, anchored to a clear visual and verbal identity system.

Visual Identity

- **Color System** — A three-color palette engineered for trust, energy, and technology:
  - **Navy Blue** `#0A1F44` — Institutional authority and stability
  - **Red** `#FF2D2D` — American energy, urgency, and boldness
  - **Cyan** `#00B4FF` — Innovation, technology, and forward momentum
- **Typography** — Montserrat (headings) paired with Inter (body), selected for their modern professionalism and Google-optimized performance
- **Logo Suite** — Multiple vector logo versions created including:
  - Full horizontal wordmark
  - Reduced / icon-only version
  - Dark and light variants
  - Favicon-optimized SVG (cyan fill)

- **Brand Mood** — *National Reach, Local Dedication. Result-Driven. Modern. Premium.*

Tone of Voice

Defined as **The Expert Patriot** — a voice that is:

- **Professional** — industry-standard terminology, always accessible
- **Proud** — confident about national reach across all 50 states
- **Action-Oriented** — focused on Leads, Growth, and Results
- **Vocabulary:** "engineer," "high-performance," "result-driven," "strategic," "measurable"

Brand Strategy Foundation

- **Core Identity:** *"National Reach, Local Dedication"*
- **Positioning:** Premium design partner for US-market businesses that need results, not just aesthetics
- **Target Client:** Small-to-medium businesses looking to scale with a professional brand presence

---

2. Website Design & Development

A fully custom PHP website built from the ground up with a cinematic, premium aesthetic.

Pages Delivered

The following table summarizes the pages created for the website.

Page	Description
`index.php`	Homepage — Hero, Portfolio Preview, Services, Process, Packages
`portfolio.php`	Full bento-grid portfolio with 6 real project modals and dynamic filtering
`contact.php`	Lead generation contact form with service selector

Page	Description
`404.php`	Custom branded error page

Technical Stack

- **PHP** — Server-side rendering, modular includes structure
- **Tailwind CSS 4** — Utility-first design system with custom brand tokens
- **GSAP + ScrollTrigger** — Cinematic scroll animations and entrance effects
- **Lucide Icons** — Consistent SVG icon system
- **Google Fonts** — Montserrat + Inter (preloaded for performance)

SEO & Technical Implementation

- Unique `'<span type="placeholder" placeholder-type="file"></span>`

title tags and meta descriptions created and per page (within character limits)
Open Graph + Twitter Card tags on all pages
Schema.org ProfessionalService JSON-LD structured data
Canonical URLs
Favicon (SVG, light/dark compatible)
OG Image (1200×630px) generated for social sharing
`loading="lazy"` on all below-fold images
`rel="noopener noreferrer"` on all external links
Dynamic copyright year (`date('Y')`)
Custom 404 page

Portfolio Integration

- 6 real projects photographed, formatted, and integrated
- Projects organized across 3 service categories: Logo & Branding, Editorial Design, Social Media
- Interactive bento-grid modal for each project (cover + content media)

3. Market Research & Strategy Documents

Competitors Analysis

A research study of 61 active design agencies across New York City and San Francisco was conducted to benchmark Innov8's positioning, pricing, and service differentiation. (See full report: *Competitor Analysis*)

Brand Strategy Document

A forward-looking strategy document outlining immediate actions Alejandro can take, plus optional growth services available for future engagement. (See: *Brand Strategy*)
